

Tameside and Glossop health economy is a system comprised of partners from NHS Tameside and Glossop, Tameside Metropolitan Borough Council, Derbyshire County Council, Greater Manchester Healthier Together, Tameside Hospital Foundation Trust, Stockport Foundation Trust, Pennine Care and the voluntary sector who have come together to ensure that the people of Tameside and Glossop have:

Access to Excellent, Compassionate and Cost Effective Care and Lead long and healthy lives.

Strategic Aims

Our population will be fully involved in developing and agreeing the services that will be available to them

Our patients and carers will be involved in all decisions about their care

Local primary care will be at the heart of our integrated services

Care will be built around the patient

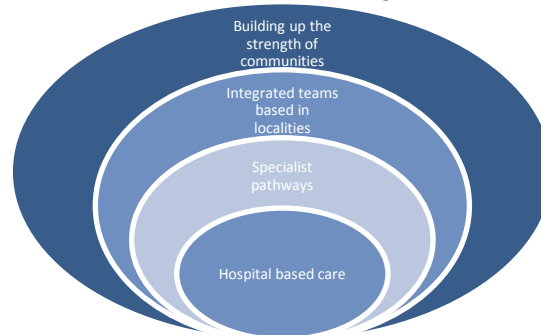

Our patients will be able to access high quality emergency and urgent care

Our elective care will be high quality, efficient and productive

Our patients will receive specialist services in centres of excellence

Delivered through Care Together

An Integrated Care organisation clinically led and patient centric delivering holistic health and social care to the whole population of Tameside and Glossop through four levels.

Patients and communities empowered to care for themselves and to work together to support local health and wellbeing

Technology enabled access to information, advice & care

Locality based integrated teams of multi skilled health and social care professionals using integrated case management and care co-ordination

Identification and support of "at risk" people

High Quality Primary Care working through new models

Fewer overnight stays in hospital more community based urgent care, ambulatory care, surgery being carried out in daycase facilities or in clinics

Services shared across hospitals concentrating the expertise in teams delivering the "once-in-a-lifetime" specialist care

All the above will be developed jointly by commissioners, Health and Social Care providers, the voluntary sector and patients

System values and principles

- The needs of the community come before any one organisation's sovereignty
- People will be supported in the right place with the right health and social care provided by the right professional
- Care designed around people's needs enabling them to lead an independent life within own homes and local community
- Focusing on wellness and preventing illness including longer term health improvement
- High quality, safe, local treatment and support in planned and urgent situations
- We will maximise value by seeking the best outcomes for every pound invested
- We work cohesively as commissioners, providers and voluntary sector

Measured using the following success criteria

- Increased Healthy Life Expectancy
- Reduced health inequalities
- Delivery of the 'Everyone Counts' ambitions
- Achieving the NHS Constitution commitments
- All providers assessed as safe and providing quality outcomes
- All organisations within the health economy report a financial surplus in 18/19

Overseen through the following

- NHS Tameside and Glossop Governing Body
- NHS T&G Public & Patient Impact Committee
- NHS T&G Quality Committee
- Partner organisations' Boards
- Tameside and Derbyshire Health and Wellbeing Boards
- Tameside and Glossop Commissioning Executive
- Tameside and Glossop Integration Board
